

# 24" BUILT-IN FREEZER COLUMN (LEFT-HAND DOOR SWING)

## Signature Features

### LIMITED AVAILABILITY

Only 13 pairs of Burlesque columns exist — etched with the Burlesque name and production number out of 13. Each pair is an unapologetic expression of the pinnacle of luxury.

### PAIRS WITH CUTS BY JENNAIR

The bold red and snakeskin motif on the interior of a Burlesque column is complemented by Cuts leather panels or other animal patterns and textures. Add a custom handle to design a column pair that is unlike any other in the world. Panel and handle sold separately.

### EMOTIVE CONTROLS

At waist-level, this panel invites touch, challenging the idea that controls should be out of sight and out of reach. Control every zone and choose presets to coax out the flavors of your produce, meat, beverages, spirits and beyond—and dominate your domain according to your desires.

### BURLESQUE INTERIOR

Inspired by the velvet interiors of antique jewelry boxes and deep reds often seen in luxury cars, this first-of-its-kind burgundy finish is avante garde temptation incarnate. A striking contrast to the cool interior, this finish is an unexpected backdrop for fresh greens and other vibrant ingredients.

### DIVINITY FREEZING

One provocative air tower. Two precision sensors. Calibrated every second. United, they keep freezer temperatures from swinging and spirits impeccably chilled.

### SEAMLESS TOUCHES

With a stealth flush door, columns go incognito until you open wide. The industry-first Obsidian hinge and burgundy concealed details melt into their surroundings.

### SNAKESKIN-STYLE AIR TOWER

An exotic, custom glass air tower in matte ceramic ink layered over bold red metallic ink and finished with an exquisite snakeskin motif. As the centerpiece of the column, the air tower distributes cool air throughout.

### ECLIPTIC LIGHTING

Live beyond the shadow. Abandoning the dark spots cast by dated puck lighting, over 650 LEDs frame and fill your column, coming alive at a touch of the controls. Each zone awakens and pulses as you mold your column to your desires.

### SOLID GLASS AND METAL

All-metal bin and shelf frames. Thick, naturally odor-resistant solid glass. A forcefield at the edge that prevents spillovers. To hell with cheap plastic in luxury door bins, shelves and liners.
